LARGE SAMPLE SPLITTER (Fully Enclosed Version)

Standard: ASTM C702, EN 9221, UNI 8520

Sampling Tools Riffle Boxes (Sample Splitters)

Fully Enclosed sample splitter are suggested for samples of fine, dusty powders, or where moisture retention is important. With transparency compartment on top of feeding chutes, this splitter is very sturdily constructed with cadmium coated plated for rust protection. It is designed for the reduction of test sample which are too large in volume. It handles any material from size up to 108 mm. Each chute bar is 1/2" wide. The opening start from 1/2", 1", 1 1/2", 2", 3" & 4" are possible.
