

VIBRATING TABLE

Standard: EN 12390-2, BS 1881-108, UNI 6127

Concrete Compaction

For use in laboratory to vibrate cylinder and cube specimens or compaction of concrete specimens. Robustly manufactured to operate with minimum noise level. Equipped with motor having 3000 / 3600 r.p.m. vibration per minutes. The vibrating table fitted with clamping device and timer control up to 60 minutes.

Technical Specifications :

Model Number	NL 4015 X
Vibrating Frequency	3000 / 3600 r.p.m.
Power	220 V, 1 ph, 50 / 60 Hz

Available Modes :

Model Number	Table Size (mm)	Power (W)	Hp	Weight (kg)	No. Mould
NL 4015 X / 001	700 x 400	100	0.134	70	2
NL 4015 X / 002	1000 X 400	130	0.174	74.5	4
NL 4015 X / 004	1300 x 1000	130	0.174	159	12
NL 4015 X / 005	610 x 1000	130	0.174	90	6
