

PROCEQ GP8000 GPR TELESCOPIC ROD WITH TABLET HOLDER

The **Proceq GP8000 GPR Telescopic Rod with Tablet Holder** is designed for use with the Proceq GP8000 Ground Penetrating Radar (GPR) system to extend the scanning reach and improve inspection efficiency. The telescopic rod provides flexible positioning to enhance inspection efficiency, operator comfort, and ergonomics during field operations. The integrated adjustable tablet holder enables convenient viewing of real-time inspection data throughout the inspection process.

Technical Specifications :

Model Number	NL 7106 X / 001
Max. Extended Length	Up to 1.8 Meter
Product Dimension	125 (L) x 40 (W) x 930 (H)
Approx. Weight	1 kg

Features:

- Adjustable telescopic rod with vertical and horizontal positioning.
- Extends the scanning reach for improved inspection accessibility.
- Enhances operator comfort and ergonomics during field inspection.
- Robust construction for reliable field performance.

Set Consist Of :

Model Number	Parts Description	Qty
NL 7106 X / 001 – P 001	iPad Holder	1 Unit

*1 Copy of Instruction Manual
