

PROCEQ PM8000 PROFOMETER TELESCOPIC ROD WITH TABLET HOLDER

The **Telescopic Rod with Tablet Holder** is designed for use with the Proceq PM8000 Profometer series to extend the reach of the sensing unit during rebar location and concrete cover inspection. The telescopic rod features adjustable vertical and horizontal positioning, providing flexible operation while improving operator comfort and ergonomics. The integrated adjustable tablet holder provides convenient access to real-time measurement data throughout the inspection process, enhancing inspection efficiency.

Features:

- Adjustable telescopic rod with vertical and horizontal positioning.
- Extends inspection reach of the sensing unit during inspection.
- Allows flexible positioning to suit various inspection angles.
- Enhances operator comfort and ergonomics during field inspection.
- Robust construction for reliable performance.
- Compatible with the Proceq Profometer PM8000 Series.

Technical Specifications :

Model Number	NL 7106 X / 002
Maximum Extended Length	Up to 1.8 Meter
Product Dimension	220 (L) x 40 (W) x 920 (H) mm
Approx. Weight	2 kg

Set Consist Of :

Model Number	Parts Description	Qty
NL 7106 X / 001 – P 001	iPad Holder	1 Unit

*1 Copy of Instruction Manual
